[Treatability Study Report Comments Feb 15 08.doc](#)

Jim, Bob & Rick

EPA comments on the Draft Treatability Study Literature Survey Technical Memorandum are attached along with a transmittal letter. Please note that while we are not requiring revision & resubmittal of the document, it is our expectation that comments will be addressed in the scoping and screening process of the FS. We should discuss this approach at one of our upcoming managers meetings.

Thanks
Chip Humphrey
